### **DETAILED ACTION**

#### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 116, please delete "claim 116" and insert therein –claim 55--.

#### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:
2. The applicant's timely filing of the terminal disclaimer has overcome potential obviousness type double patenting over patent 6,335,072. Further, the examiner agrees with those comments and arguments submitted by applicant. The newly amended claims now require the cleaning vessel to be non-pressurizable. The prior art differs from the instant claims by requiring the washing step to be performed with pressurized fluids. It is known to use the pressurized device for washing and rinsing. However an apparatus with a non-pressurizable wash and a pressurizable drying vessel was not taught in the prior art. Nor would it have been obvious to modify the prior art as the prior art requires the first stage to be pressurizable.
3. The remainder of the references cited in this action are meant to represent the state of the art in supercritical cleaning.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory E. Webb whose telephone number is 571-272-1325. The examiner can normally be reached on 9:00-17:30 (m-f).
